

Nature Inspired, Handcrafted Color-Changing LED Lighting

Bring the Splendor of our Natural World into Your Décor with EcoLiteco's Line of *Sweber* Handcrafted Lighting

EcoLiteco's handcrafted chandeliers are an elegant way to bring fun and vivid color to any home, restaurant or office. Whether you select one of our standard creations or commission a piece based on your own inspiration, our designs are a unique way to bring enjoyment to your space.

Each of the chandeliers' motif pieces are hand-formed from durable porcelain. They are strung on sturdy braided stainless-steel and nylon-coated wire to ensure years of longevity. The strands are then attached to a sturdy, white acrylic surface and a durable powder-coated aluminum fixture that is weather-resistant, UV-resistant, rust-resistant, anti-graffiti, anti-scratch, antimicrobial and TGIC free (non-toxic). The chandeliers are available in either a pendant or flush-mount installation style.

A universal Red/Green/Blue (RGB) wireless handheld remote is included to control static, dimmable color modes; along with individually selectable dynamic color-changing modes of speed, brightness, play/pause and on/off, making operation convenient and fun. Since the LED modules used in the fixture stay cool to the touch, have a lifetime of 22,000+ hours, and use insignificant energy; all of EcoLiteco's *Sweber* lighting is safe, economical and eco-friendly too!

Pendant Installation System

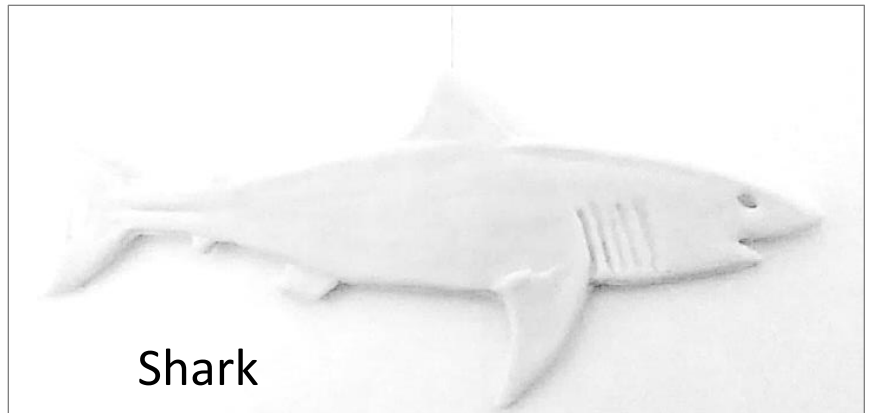

"Jelly24"

Color-Changing LED Light Fixture

- **Light Fixture:** Two-Part, 24" Diameter Durable Weather-resistant White Powder-Coated Aluminum Fixture with White Frosted 3/16" Acrylic Light Cover
- **Figurines:** Handcrafted Bone White Porcelain

- **Light Fixture 110 AC Connection:** Simple 2-Wire
- **LED Driver:** Class 2 UL-Approved AC/DC
- **Warranty:** Limited 1-Year Manufacturer's Warranty

Pendant Mount Options

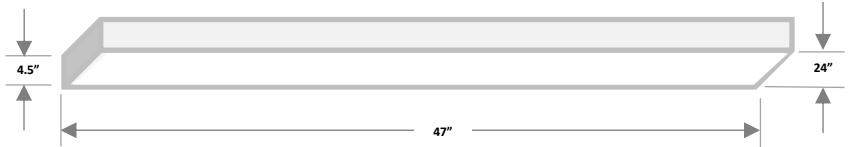

Flush Mount Options

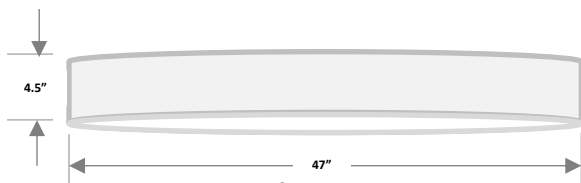

Pendant mounting systems can create a single or multiple mount cable canopy set to suit any of the fixtures outlined below. Or, another mounting option is to eliminate the pendant mounting type and flush mount the fixture to a flat ceiling surface. The standard powder coat color of the aluminum frames pictured below is sky white. Also, the amount and placement of porcelain figurines varies due to each fixture being hand made. Custom powder coat colors and figurine types upon request.
